Wall Street Called Upon to Support London Fall.

COPPER PRICES IN DECLINE

Disturbances in India Have Effect on Markets in the English Capital, Anaconda French Influence Also Felt in New York-Union Pacific Demands for Money Do Not Aid Situation.

Prices of all the leading securities on the London exchange were unsettled and depressed by the news of the trouble on the Indian and Afghan frontier, and by the day of the trouble on the Indian and Afghan frontier, and by the day of the trouble on the Indian are proposed during the day. further rumors received during the day Erie 1st..... of a conspiracy in Calcutta to assassinate Erie 2d. Because of all this, the price of consols suffered a sensational drop to-day of 1½ points, and London was a seller in this market of a quantity of stock currently estimated between 30,000 and 50,000 shares. The market here, however, sustained itself under this test, in what was popularly regarded, all things considered, as a very satisfactory manner. It declined gradually, and in a well-ordered fashion, and the movement did not seem to be productive of any assaults on values by speculators for the fall.

Prices Are Strengthened.

Later on, prices atrengthened considerably, being at one time very nearly at Saturday's closing but in the afternoon.

day was governed not simply by European developments, but by a continu-ation of realizing sales from local operators that very plainly put in an appearance at the last stock exchange session, and undisguised manipulation for the purpose of profit-taking went on indeed in a very open way. Two stocks, the Missouri Pacific and Southern Pa-cific shares, were both very sharply Panama Canal 3s, registered. while the rest of the market was weak for no especial reason that any one could think of, except that pos-sibly a "squeeze" of a supposedly large exchange: short interest in them was in progres and both of these stocks, although losing a large share of their rise, closed small net gains.

Union Pacific Bonds,

The second reaction in the market the afternon was due to some extent the not wholly agreeable announceme made by the president of the Unit Pacific Company that the stockholde of the company at their special meeting to-morrow would be called upon to a thorize a bond issue twice as great as t largest estimate of the probable size the issue heretofore made. It was sa that the company would in no eve actually put out more than \$50,000,000 the new bonds at this time, but th it would ask that \$100,000,000 of bone be auhorized in order to provide f future expenses as urgency for the might arise. As these bonds are a fir mortgage, the fact probably is that the will be sold without excessive difficul banking syndicates that may A more doubtful probability is, how

LOCAL FINANCIAL GCSSIP.

Business started off well on the Washington Stock Exchange yesterday, though

Incident of importance. The fact seems to be that much more stock and bonds to be that much more stock and bonds would be taken if they came to the exchange for sale, showing that those who bought local utility securities months ago or last year at the high prices have faith that those prices will be reached again and that they will be enabled to get out of their holdings at what they gave for them or possibly a small advance. There incident of importance. The fact seems them or possibly a small advance. There is no pressure to sell, and prices of nearly all the local stocks and bonds have been gradually climbing higher, until many of 94 gradually climbing higher, until many of them are back to what was regarded nor-mal figures a year or more ago. The mal figures a year or more ago. The bright feature of the situation is these securities would be taken if the holders

Save Your Money Now

In the current magazines many articles have recently appeared telling how many of the great men of the country have risen to their present positions in life.

With few exceptions, these men were all poor, and their success is chiefly due to their thrift and saving habits during their younger years.

The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments, They do not depend upon the financial responsibility of individuals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."
